EDUCATION

National Institute of Technology, Jalandhar
B.Tech - Information Technology

Aug 2024 – Jun 2028
Jalandhar, Punjab

EXPERIENCE

Frontend Developer Intern | BlogstormAI 2026

- Developed responsive ReactJS and Next.js components for the wprise.ai platform, improving performance and accessibility.
- Collaborated with design and backend teams and contributed to frontend code reviews and UX improvements.

Cyber Security Intern | Centre for Development of Advanced Computing (C-DAC) Jun 2025 – Jul 2025

- Completed Cyber Gyan training in Ethical Hacking and Penetration Testing at C-DAC, Noida.
- Performed vulnerability assessment and hands-on security testing to identify and mitigate security risks.

PROJECTS

Nezuko - Web Push Notification Platform | ReactJS, NodeJS, Web Push API 2026

GitHub: Repository | Live Demo

- Built a privacy-focused web push platform with one-line integration, cross-browser notifications, and 16-digit project-based subscriber management.

EcoSangam - AI Sustainability Platform | ReactJS, NodeJS, MongoDB, Gemini API, ARIMA 2026

GitHub: Repository | Live Demo

- Developed an AI-powered carbon footprint platform with Gemini recommendations, real-time analytics, ARIMA forecasting, JWT authentication, and Google OAuth.

OneFlix - All-in-One Streaming Platform | ReactJS, TMDB API 2026

GitHub: Repository | Live Demo

- Built an entertainment platform for movies and TV series with TMDB-powered discovery, search, categorized catalogs, and watch-by-ID playback.

WatchFlow - Regional Streaming Directory | ReactJS, NodeJS, Automation 2026

GitHub: Repository | Live Demo

- Built a SaaS-style directory for free regional streaming platforms with curated links and an automated bot for monitoring and flagging broken URLs.

Hostel Management System | ReactJS, NodeJS, MongoDB 2026

GitHub: Repository

- Developed a full-stack platform for room allocation, reservations, student records, check-in/out, role-based administration, and real-time availability.

ShipFloww - Courier Management System | ReactJS, NodeJS, MongoDB 2025

GitHub: Repository

- Built real-time courier tracking with user/admin dashboards, shipment updates, and delivery notifications.

Meme Adda - Instagram Meme Page Admin Site | ReactJS, NodeJS, MongoDB 2025

GitHub: Repository | Live Demo

- Developed an admin panel for meme uploads, scheduling, content organization, analytics, and audience engagement tracking.

TECHNICAL SKILLS

Core: DSA, OOPs, DBMS Languages: C, C++, Python, JavaScript

Technologies: ReactJS, NextJS, NodeJS, MongoDB, Flask, PostgreSQL

Tools: Git, GitHub, TailwindCSS, Bootstrap

LEADERSHIP & ACTIVITIES

National Service Scheme (NSS) – Student Coordinator

Aug 2024 – Dec 2024

- Organized blood donation drives, cleanliness campaigns, and tree plantation programs.

Super Quant Coders – Core Member

2025 – Present

- Contributed to technical activities and initiatives of the technology society.

CERTIFICATIONS

Frontend Developer Intern Certification – BlogstormAI | Virtual Internship Certification – Cyber Gyan
| Appreciation Certificate – Mess Secretary
